

GROUP:

Group of 2 to 4 members

WEIGHTING TOWARDS THE ASSIGNMENT:

Total: 100%

(This assignment contributes 60% to the final coursework marks)

SUBMISSION DEADLINE:

Prototyping Presentation : Week 6

Final Presentation & Program Submission : Week 12-14

With the exception of Extenuating Mitigating Circumstances (EMC) reasons, penalty for late submission of coursework shall be imposed after submission deadline / extended submission deadline:

- Late submission within 1 - 3 days: total marks to be deducted is 10 marks.
- Late submission within 4 - 7 days: total marks to be deducted is 20 marks.
- Late submission after 7 days: reject coursework and zero mark shall be awarded.

LEARNING OUTCOME BEING ASSESSED:

CLO1: Demonstrate the appropriate theoretical and basic concepts in mobile application development (C3, PLO2)

CLO2: Develop basic Android mobile apps based on the architecture in Android apps development. (P3, PLO3)

CLO3: Demonstrate team work spirit in developing mobile application. (A2, PLO4)

Scenario

Your team is tasked to create a mobile application that addresses one of the United Nations' 17 Sustainable Development Goals (SDGs). You are free to choose any goal and any problem within it. The app should offer functionalities that help individuals, communities, or organisations make progress toward the chosen goal. You are encouraged to be creative and innovative in your approach while considering practicality and feasibility.

Problem Identification

- Choose one SDG, then identify a specific challenge or opportunity within it that a mobile application could realistically help with. You may focus on any goal you wish.
 - What problem will your app address?
 - Why is it important for society / the chosen goal?

Target Audience Analysis

- Define the target audience for your app. Who are the primary users? What are their characteristics and needs?
- How will your app meet the needs of the target audience effectively?

The 17 Sustainable Development Goals

You may base your app on any one of the following goals. Browse them in detail at <https://sdgs.un.org/goals>.

1. No Poverty
2. Zero Hunger
3. Good Health and Well-being
4. Quality Education
5. Gender Equality
6. Clean Water and Sanitation
7. Affordable and Clean Energy
8. Decent Work and Economic Growth
9. Industry, Innovation and Infrastructure
- 10.Reduced Inequalities
- 11.Sustainable Cities and Communities
- 12.Responsible Consumption and Production
- 13.Climate Action
- 14.Life Below Water
- 15.Life on Land
- 16.Peace, Justice and Strong Institutions
- 17.Partnerships for the Goals

DELIVERABLES:

PROTOTYPE PRESENTATION:

Create a prototype of your app and present it to your tutor. Prepare a 10 minutes presentation. Your presentation slide should be **no more than 10 slides**. The slides should include the following items:

1. Title of app
2. Introduction
3. Problem(s) and solution(s)
4. Navigation structure
5. Screen design (draft)
6. Conclusion
7. Q&A

Submit your presentation slides (soft copy) to your tutor or via Google Classroom. All members **must** participate in the presentation.

FINAL PRESENTATION:

Complete the assignment and present it to your tutor. Prepare a 10 - 25 minutes presentation (about 5 minutes for each team member). Your presentation should include the following:

1. Introduction
2. Live demo of your mobile app
3. Code inspection by your tutor

Submit the following items to your tutor:

1. A presentation slide containing all the mobile app main screens
2. Appendix A, B, C and D
3. A compressed copy of your program source code (zip format)

4. An installation file (APK)

Academic Impropriety

You may only work with the students in your team to produce your deliverables for this assignment. This covers cheating, attempts to cheat, plagiarism, collusion and any other attempts to gain an unfair advantage in assessment. The work that you submit must conform to those regulations.
